market. We have been awarded successively

Three Gold Medals!

At the MECHANICS' INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our

Hrecules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very

BEST BLASTING POWDER

Thus making it vastly superior to any other compound now in use

Circular containing a full description of this Powder can be obtained on application at the offices of any of our agents.

JOHN F. LOHSE, Sec'y.

BELFORD'S MAGAZINE.

DONN PIATT, Editor.

THOUGH BELFORD'S MAGAZINE IS THE latest comer in the field of periodical literature, the best proof of its prosperity is the fact that its paid up subscription list has reached a figure eminently satisfactory to the publishers.

Belford's Magazine is distinctly American and commends itself to all intelligent and thoughtful persons who wish to keep themselves posted on the great questions of the day.

Under the able and brilliant management of Col. Donn Piatt it will each month in its editorial department speak out fearlessly but fairly, and with thorough independence, on all questions of public importance.

Its long novel, given in each number complete, by some of one of our popular authors, such as Julian Hawthorne, Edgar Saltus, Edgar Fawcett, Mrs. Elizabeth Bellamy and a score of other well-known names, is a characteristic of Belford's Magazine.

Prof. Summers, David A. Wells, Henry George, Henry Watterson, John G. Carlisle, Frank Hurd, are some of the contributors to Belford's Magazine on political and economic subjects.

Short stories, two or more of which are contributed to each number, dramatic notes, passing events and book reviews, combine to make Belford's one of the most readable and interesting periodicals now before the public.

Send for a three months' trial subscription, 75 cents; $2 50 a year; 25 cents a number.

Enclose six cents for sample copy.

A SUPERIOR EDUCATION AT HOME.

THE STATE UNIVERSITY,

OF NEVADA, LOCATED AT RENO, OFfers excellent opportunities to young men and young women who desire to obtain a good education at a reasonable cost.

This institution being a part of the public school system of the State, is free to all residents of Nevada.

Five Schools or Departments

Have been organized in the University.

1. The School of Mines and Mine Engineering.
2. The School of Agriculture.
3. The Normal School.
4. The Business Department.
5. The Academic Department.

The School of Mines and Mining Engineering.

Includes a thorough course of study in mathematics, natural science and the English language. Graduates of this school will receive the degree of Mining Engineer.

The School of Agriculture.

Includes the fundamental branches of mathemathics, natural science, the English language and observations and experiments connected with the farm and garden. Students in this school will be given an opportunity to defray portion of their expenses by working on the University farm.

The Normal School.

Includes the studies pursued in the elementary and high schools of Nevada, the history of education and the theory and practice of teaching. Graduates of the Normal School will receive certificates valid in any public school of the State.

The Business Department.

Includes the study of Arithmetic, book-keeping, commercial law, business forms and the English language.

The Academic Department.

Includes English, Latin, mathematics and natural science. Graduates of this department will receive the degree of Bachelor of Arts.

The University is equipped with a library, cabinet and physical laboratories. First-class facilities for chemical analysis and assaying are being provided.

Practice in reading, singing, declaiming, essay writing and public speaking is afforded by rhetorical exercises, conducted by the Professors and by the literary societies of the University.

Room rent and good board in respectable families can be had for less than $25 per month.

The next term of fifteen weeks will open

Wednesday, January, 2, 1889

NEW ORLEANS, La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

SATURDAY .....FEBRUARY 9 1889

LOOKING TO OUR NAVY.

Senators Chandler and Daniels Strike a Popular Chord.

WASHINGTON, Feb. 7.—Senator Chandler to-day introduced a proposed amendment to the Naval Appropriation bill authorizing the construction by contract of two harbor rams of steel, to cost without armament not exceeding $1,500,000 each, and of fifteen gunboats or cruisers, each not to exceed 1,700 tons in displacement or $500 000 in cost. It appropriates $5,000,000 to begin the construction of the vessels and $3,000,000 for armament

Senator Daniels to-day introduced as an amendment to the Naval Appropriation bill a measure authorizing the President to appoint a board of naval officers to select and report upon the five best obtainable sites in the United States for the fabrication of guns and armor palte and other material of iron or steel for the use of the navy One of these sites is to be located in the Middle or Eastern States, one in Virginia, one on the Gulf Coast, one on the great lakes and one on the Pacific Coast.

Digging Up $20 Gold Pieces.

SAN FRANCISCO, Feb 7th.—While workmen were engaged to-day in excavating for the basement of the wings of the New City Hall, one of them named Carter discovered five $20 gold pieces in a shovelful of sand A minute later another laborer working alongside the first discoverer turned over a shovelful of sand and found another $20 gold piece, making a total find of $120 The coins bear the dates of 1860, 1861 and 1862 They were unearthed near the bottom of the excavation, at a depth of about fifteen feet from the surface.

De Lesseps Losing Heart

PARIS, Feb 5.—The public feeling regarding the chances of the new Panama Canal Company is one of utter despondency De Lesseps in an interview, said that if all the 60 000 bonds issued through the Banque Parisienne are not taken the enterprise must be abandoned, and a foreign nation would, for a morsal of bread, get the gigantic work, which was nearly finished, and upon which French investors had invested their millions. The canal would be completed, but neither by nor for the French.

An Object Lesson in Politics.

Detroit Tribune: If there is a young man anywhere in front of this paragraph who is politically ambitious and is sorry for it, who has a terrible itching for public office and wants to be cured, let him go and hold communion with Secretary Bayard, and we reckon he will come away with a specific that will allay the irritation.

Why Friendship was Possible!

Miss Fannie T Phayre (after the proposal)—it is impossible, Mr. Askin! But though this refusal may bring you pain, I hope we may meet in the future as friends.

Mr Askin (bitterly)—O, that is quite possible There seems no chance now of our ever meeting as relations —Puck

Hostilities to Be Renewed.

Denver Republican It is reported that Senator Blackburn's friends are laughing over the fact that Judge Rucker is not spending the Winter in Washington as contemplated Judge Rucker expects to be at the Capital within a few days, and then the laughing may be done by somebody else

What the Anarchists Really Want.

New York Press. "Down with wage slavery," say the Chicago Anarchists under their new regime of tongue license. Slavery is work without wages, but what the Anarchists want is wages without work.

In Nevada they do not give much notice when a change is desired in the Constitution to further a particular aim On the 19th of January a law was passed submitting to the people an amendment to the Constitution. The election will be held on February 11th. As the proposed amendment strikes out of the fundamental law the passage prohibiting the establishment of lotteries and raises the question of the expediency, not to speak of the immorality, of countenancing gambling, it would seem that twenty days was not a sufficiently long period for discussion.—S F Chronicle.

The Truckee Republican of Wednesday contains the following

Times are liable to be rather quiet in Truckee for the next three months.

The weather still continues spring-like and a picnic to Donner lake is talked of

Considerable lumber is being shipped from the various yards along the Truckee river.

J R Garcia announces his intention to start a class in dancing in Truckee as soon as necessary arrangements can be made.

Go to Lange & Schmitt's for everything in agate ware. Largest assortment in the State.

THE AMENDMENTS.

A Taxpayer's Argument on the Election and Lottery.

Editor Enterprise: On Monday, the 11th day of February, 1889, there will be an election throughout the State of Nevada, for the ratification or rejection of certain proposed amendments to the Constitution of the State.

This election has been called by an Act of the present Legislature, now in session, because of the necessity, or at least apparent necessity, of appealing to the people, and ascertaining their judgment on the question involved before the adjournment of the present Legislature.

To await two years longer, it was supposed, would result in great losses to the taxpayers of the State, and hence it was the part of wisdom to act at once.

The Legislature accordingly passed a special election law to enable the people to pass on these proposed amendments to the Constitution, so that, in case of the adoption of them, the Legislature might proceed to pass such laws as would give effect to the amendments and to the proposed change of public policy, and in case of rejection, the whole subject might be dropped and the State be permitted to drift along in the old way, towards higher and higher taxation, with taxable property decreasing in quantity and value, and the outlook for the future of the State becoming darker each year.

The Legislature accordingly appropriated $15,000 out of the State Treasury to pay the expenses of this election, as a money-saving and money-making proposition to the people of the State at large.

What was the apparent necessity for this election on the part of the Legislature in thus appealing to the people?

The answer is complete, and should be satisfactory to every taxpayer and property owner in the State.

It will be remembered that at the last election, in November, 1888, some of these proposed amendments were submitted to the people and were voted on and adopted, and the Supreme Court of the State, in a case made for the purpose, decided that none of these proposed amendments had been legally submitted, because they had not then been published in the newspapers as required by law; hence what of them had been legally adopted?

Among the amendments proposed is one fixing the time of the meeting of the Legislature for the third Monday instead of the first Monday, as is now required, in order that the reports of the different State officers covering the period of two years, ending on the 31st of December, might be completed and published for information of the Legislature and people after the Legislature convened.

Another will permit the school money, some $500 000, now lying idle in the Treasury, yielding no interest whatever to the School Fund and doing nobody any good, to be invested in State bonds of other States of the Union at fair rates of interest—say six per cent. per annum—and thus make a difference in favor of the School Fund before the meeting of the next Legislature of near $40,000, as the sale of State lands, the proceeds of which go into the School Fund, is continually going on and that fund is constantly increasing. Under the Constitution, as it now stands, this money can only be invested in Nevada State bonds—of which there are none to invest in—or United States bonds, bearing only four per cent. interest, and which are selling for $127 on the $100 in open market.

It is now impossible to invest this money, upon the interest of which depends the education of our children, at any greater interest than two per cent per annum.

Another amendment permits the Legislature to consolidate certain Constitutional county offices and to take other steps now forbidden, by which money can be saved, and government, State and county, cheapened to the people without cutting down salaries

Another amendment, No 22, proposes to remove the restriction now upon the Legislature to license a lottery and to derive a revenue from that source for the support of the government. It is not silly, short-sighted and unjust, then, for any editor or other person to advise the people to vote *No* on all the amendments in view of the financial condition of our State, present and prospective, simply because the Legislature has appropriated $15,000 to cover the expenses of the election to be held?

Some newspapers have taken this ground and are to-day asking people to vote No upon something that, thereby, they would prevent the expenditure of this sum or restore it to the Treasury. Is it not rather evidence of spleen and vindictiveness than a level headed disposition to fairly consider the subject in hand, and benefit the taxpayer upon whose shoulders fall the burden of maintaining the State Government? The bare statement of the proposition carries with it refutation. If the amendment respecting the investment of the school money, the $500,000 and upwards, prevails, the increased interest of that sum alone will more than doubly pay the expenses of the election.

If the amendment in relation to permitting the Legislature in its judgment to license a lottery prevails, the *minimum income from* that source alone, which has even been suggested or intimated, would more than four times pay all the expenses of the election before the meeting of the next Legislature.

And if this be true, which none can successfully deny, what more can be said about the wisdom of this amendment, when we consider the increased receipts of the State Treasury from these two sources for all future years, in case these two amendments are supported by a majority of the people voting thereon at the election next Monday?

The smallest amount of license per annum which has been suggested by the friends of the Lottery amendment at any time, and which amount was named in the bill which passed both branches of the Legislature two years ago and which was vetoed by the Governor on constitutional grounds alone, was $40,000. The adoption of these two amendments alone would add to the State's receipts annually $80,000—$120 000 between sessions of the Legislature—and not one cent would be added to the burdens of our tax-ridden people.

The interest on our school money would be paid by some other State in the Union, and paid out by Nevada to the educators of our children.

The income from the license to the lottery—say $40,000 per annum—would come from abroad, and would be paid out either to our officers or to support our charitable institutions—the Insane Asylum or Orphans' Home, or to Nevada workingmen for the construction of reservoirs over Nevada to save the water running to waste in early spring, for the irrigation of our arid lands and the making of permanent homes, thus in turn creating more taxable property for the support of the governments, State and county.

It will not do, in the present circumstances for any one, even might he be a professional moralist, to pooh-pooh the proposition of licensing a lottery, and for that purpose removing the present Constitutional restriction upon the Legislature.

It must be remembered that at the election next Monday no particular bill or law is before the people at all, and if the people defeat these amendments to which I have called attention, it will be final as to all for many years to come. They cannot be revived until after they have passed two consecutive Legislatures to be hereafter chosen, and again submitted to the people.

What are the arguments in favor of a lottery in Nevada, and in favor of so amending the Constitution as to permit the Legislature to license one?

We must remember that our State is declining in population and wealth. However disagreeable the facts may be to us, it is the duty of every taxpayer to look them squarely in the face and to deduce such conclusions as are legitimate and necessary from the facts. The first thing we know, it will become a serious question of law and statesmanship as to how a State Government may be permitted to lapse into a territorial form of government, or to be annexed to some other State, in view of the stubborn fact that it will be impossible to maintain a State Government upon the high and pretentious plane of that of Nevada, with a number of State officials and a range of salaries larger than most States in the Union. We probably reached the maximum of population and wealth in 1876, twelve years after the State came into the Union.

For two or three years after that, and during the great output of bullion by the bonanza mines up to 1879, we almost held our own.

At the Presidential election in 1876 we cast in the neighborhood of twenty thousand votes. At the Presidential election in 1888 we cast a little over twelve thousand votes. What has been the cause of the decline in our population and wealth is immaterial. It was probably the demonetization of silver in 1873.

To illustrate the decline or obliteration of certain sources of revenue—which decline every sensible man knows and feels to be permanent for an indefinite time—let us look at certain statistics derived from the report of the Controller for the different years mentioned:

The *State of Nevada* received from the bullion tax alone in 1875 $163,632; in 1876 $217,509, in 1877, $216,287; in 1878, $207,413, in 1888, $18 983.

The above figures cover the entire amount received into the *State Treasury* from all the counties during the years named for *State purposes*,

Of the above amounts all the other counties in the State combined, outside of Storey county, paid into the State Treasury sums as follows: In 1875, $27 000; in 1876 $23 000; in 1877, $31,000 in 1878, $44,000; in 1888, $4,402

Storey county paid into the Treasury from bullion tax alone in 1876 $194,500, in 1888, $14,591.

If we look over the State we find the great camps of Eureka, Pioche, Austin, etc., practically shut down, and it is certain that State revenue from the proceeds of the mines will *decline* instead of *increasing* in the future.

To the late find in the Con. Cal. & Va. is due the some of $14,491 paid in 1888, and that cannot last always.

All of us know the Comstock will fail very soon as a source of revenue to the State, so far as bullion taxes are concerned, and at some time fail altogether as a great bullion producer. And when it fails Western Nevada will, in a great measure, go with it Think of this before you vote next Monday The fundamental law of the state will outlast the Comstock, and if by your vote you cut off any possible chance of revenue from the proposed amendment permitting the Legislature to collect a heavy license from a lottery, you have voted to increase taxation and saddle upon your neck unnecessary taxation.

Remember that taxation in Nevada is now higher than we can now realize by interest on our money for the education of the children, an anomalous fact to be found nowhere else in the Union, except, possibly, in some southern State,

In Douglas it is $3, in Esmeralda, $3 60, Eureka, $3 10, Lander, $3 60, Lincoln, $3 60; Lyon, $3 05; Nye, $3 50; Ormsby, $2 50, White Pine, $3 75.

Do the voters of this State wish to make it higher by changing the possibility of relief from taxation by defeating the proposed amendment, No. 22?

If this amendment prevails and the Legislature passes a bill substantially the same as the one passed two years ago, giving the State $40,000 per annum license for a lottery, it will have practically, so far as getting revenue in the State Treasury is concerned at the present rate of taxation, have done something equal for the purposes of taxation to the construction of a second Central Pacific railroad from the California to the Utah line, 450 miles long, at $11,000 per mile, for the next twenty-five years.

It would be equal to the construction or bringing into existence in the State for purposes of State taxation of ten railroads like the Virginia & Truckee, or six such railroads, including all its sidetracks, rolling stock and all other property of which it is possessed. See Controller's report for 1888, pages 73-75

It would be equivalent to the construction of 200 quartz mills at a taxable valuation of about $25,000 each. It would create to all intents for taxation $5,000,000 of property.

But it is said by the new opponents of this measure, moralists in the abstract, who teach by precept and not by example, that the measure is immoral—that it is gambling and should not be licensed.

It must be remembered that it has always been the policy of this State to license gaming, in order to derive a revenue from that source, and there can be found no hard-headed taxpayer or legislator who will vote to absolutely prohibit gaming, and thus cut off all revenue to the State from licenses of that character. The farmers and business men would soon make their wishes known about such statesmanship in Nevada

Now, why make hash of one and flesh of the other? Why not put them all on the same moral plane? The State now derives from gaming licenses $12,000 per annum, in round numbers, from all games combined, including faro, stud poker, rouge-et-noir, etc., which are all licensed and permissible under our law.

The lottery alone proposed to pay into the treasury four times as much as all other games combined.

As to the matter of the morality, the argument is in favor of the lottery.

All the surroundings of the present legalized games—faro, poker, etc.—may justly be said to be demoralizing. Sitting up at night drinking whisky, associating with dissolute people, making home unhappy and often losing all, characterize many of these games.

Not so the lottery. If a man wishes to tempt fortune in the lottery he buys a ticket and that is the end of it. No demoralization; no great loss; no bad associations.

Out upon such alleged moral arguments when the same persons favor our present license system.

The other benefits to the State from a lottery are numerous. We must acknowledge that thousands of dollars now go away monthly to the Louisiana Lottery. This will in a measure remain at home. If the lottery should be a success hundreds of thousands of dollars will come into the State to the offices of the company, which will be here, and nearly or quite all will be paid out in our State. It follows that much of it will be expended in our midst.

Several hundred first-class employes will be given employment in different branches of the business, and taxable property will be created, buildings will be erected, new homes made and the headquarters of the company will necessarily become a great money center.

We should not be misled by the disgruntled arguments of alleged moralists, but all vote Amendment No 22—Yes. TAXPAYER.

Carson City, February 5th. *

DAILY NEVADA STATE JOURNAL

PRICE OF DAILY JOURNAL,

12½ CENTS PER WEEK.

SATURDAY.....FEBRUARY 9, 1889.

TOWN AND COUNTY.

BREVITIES.

The Senate is adjourned over until Tuesday.

The walk on the west side of the iron bridge needs repairing.

A new sidewalk is being laid across First street to the iron bridge.

E. A. Moore, the honey man, went to Virginia City yesterday morning.

The new Board of State University Regents will hold a meeting in Carson to day.

The Water Company finished clearing the Highland ditch of ice Thursday and water was turned into it yesterday.

During the warm weather consumers of water should remember the Water Company in keeping the storage reservoir full by not leaving the water run continuously in patent hose.

The Piute Indians are holding an annual fandango on the Nevada Rifle Association target range, near Virginia City. The fandango began Thursday and will last until Monday.

Mrs. Schnabel, mother of Mrs. Dave Prosser, died yesterday morning after an illness of several weeks, age 78 years. The remains will be taken to Auburn tonight for interment beside those of her husband.

R. H. Lindsay returned yesterday morning from San Francisco and reports his little daughter Lucy to be in a very precarious condition. She has a heart affliction that is almost sure to prove fatal.

The argument in the mining case of the Treasurer vs. the Commonwealth of Tuscarora is being argued in the District Court of Ormsby county before Judge Rising. Argument has been going on since Monday, and will last the balance of the week.

The JOURNAL acknowledges the receipt of a copy of the pamphlet compiled by Capt. C. C. Warner on the products, resources, opportunities for capital and advantages of Nevada. It is a book of 36 pages and sets forth Nevada's resources, growth and condition in a very creditable manner, and will act as a splendid agent in advertising our State.

The Trial of McTigue.

The trial of Frank M Tigue for the killing of Charles Lenaman at Silver Peak, last November, will begin before Judge Rising in Hawthorne, Esmeralda county, next Monday. It will be remembered that McTigue, who is also known as Pollard (his stepfather's name) went to the postoffice in Silver Peak and asked for a letter. Clerk Lenaman told him that there was no letter for Pollard. He then asked for one addressed to McTigue, but the clerk would not deliver it, believing that Pollard was the man's name. Hot words ensued and McTigue left the postoffice. Subsequently he returned and again demanded the letter and again the clerk refused to deliver it. In the quarrel which followed Mr. Lenaman was shot and killed.

A. W. Crocker and R. H. Lindsay are retained for the defense, and the District Attorney appears for the prosecution.

Death of S. C. Fogus.

S. C. Fogus, one of Reno's oldest and best citizens died at his home yesterday morning. Mr. Fogus came to Reno during its infancy and was carrying on a hay and grain business here in 1868. He came from Sacramento where he resided for many years. He served four years as Commissioner of Washoe County. He was about 70 years old at the time of his death and a native of Richmond, Virginia. His funeral will take place from the hall of Truckee Lodge No. 14, I. O. O. F., Sunday afternoon at 2 o'clock under the auspices of that Lodge of which he was an old member.

I. O. O. F. Funeral Notice.

The officers and members of Truckee Lodge No. 14, I. O. O. F., are requested to assemble at their Hall on Sunday afternoon, February 10th, 1889, at 1 o'clock, for the purpose of attending the funeral of Brother S. C. Fogus. Members of Reno Lodge No. 19 and all sojourning brothers are respectfully invited to attend. By order,

W. J. THOMAS,
Noble Grand.

Attest:
JOHN BOWMAN,
Secretary.

G. A. R. National Encampment.

Departments, Reunion Societies, Posts and all other organizations wanting halls or rooms for headquarters during the G. A. R. National Encampment in August next, should inform the undersigned before April 1st, stating size or number of delegation desiring such accommodations.

C. K. TYER, Secretary,
Milwaukee, Wis.

NEVADA.

Its Products, Resources, Opportunities and Advantages.

The JOURNAL copies the following from the pamphlet issued by Wm. Thompsom and compiled by Capt. C. C. Warner:

Ours has been a "battle-born" State nearly twenty-four years, being divided into fourteen counties, the whole having an area of 112,090 square miles. Official reports show that it contains 1,765,000 acres of land fit for cultivation. There is not a county in the State, with perhaps one exception, in which grain cannot be, and is, produced. Wheat (of the finest quality), barley, oats and rye are its principal grain products, much of which is exported. As to our mineral products, its fame as a silver-producing State is so broadcast and generally known the world over that in this we shall say little, and only mention that its mountains, in all parts of the State, contain gold, silver, copper, antimony, borax, cinnabar, coal, fire-clay, iron, soda, salt, galena nickel and asbestos. Some of the latter mentioned minerals are only to be found in certain localities, but there is not a county in which gold, silver and copper are not found.

RIVERS.

Our State contains seven rivers, viz.: Truckee, Humboldt, Carson, Walker, Reese, Owyhee and Quinn, the waters of which are utilized by our people to great advantage in the way of irrigation and for manufactures, and they contain the finest and most inexhaustible supply of trout in the world. All of these rivers rise and empty within our boundaries, with the exception of the Owyhee, whose waters find outlet into the Pacific Ocean through the waters of the Columbia river.

LAKES.

Seven lakes have been given us for natural reservoirs to increase and continue our water supply during the months when rain is an exception.

Lake Tahoe (one half of which lies in California), being on the crest of the Sierra Nevada, at an altitude of 6,700 feet above sea level, surrounded by snow-capped peaks and tall firs, with a length of 35 and a breadth of 15 miles. This mountain sea is one of the most beautiful sheets of water the world can produce, and it is not only beautiful, but the Great Creator placed it there as a grand reservoir for water storage, that man might utilize its steady and gradual discharge in beautifying and making productive the famous county of Washoe, of which we will say more further on. Then we have Pyramid, Winnemucca, Carson, Humboldt and Mud lakes.

Nevada is crossed and recrossed by nine railroad corporations—having a mileage of over 1,100 and valued at (taxable valuation) $10,006,002. As one of the "straws" showing the benefit to be derived in the near future from our railroads, we have two which form a cross with the C. P. R. R. at Reno, and they are now pushing their construction north and south, to connection with through trunk lines. The Virginia & Truckee and Carson & Colorado railroads, running south from Reno, have about 500 miles now in active operation, and have not far to go to make connection at Mohave station with the Atchison, Topeka & Santa Fe. The Nevada, California & Oregon railroad now has about 80 miles in active operation, and is running north to connect with the Oregon Short Line. With these connections made, Reno becomes a great competitive point for freight, benefiting the whole State of Nevada.

We quote from the San Francisco Bulletin of Dec. 1st, the following: All concede that only better railroad facilities are needed for the rapid development of this region. (Allusion being made to Northern Washoe county, Lassen, Plumas and Modoc counties, of Northeastern California.) The Nevada, California & Oregon narrow gauge, that runs north from Reno to a point ten miles east of Honey Lake and over thirty miles from Susanville, is being extended at a rapid rate. Ties for twenty-five miles extension are at the end of the line and are being put down daily. One of the executive officials of this road says that it will eventually be pushed through to the Dalles, in Oregon. New York capitalists are backing this project.

Charles and D. C. Moran, the bankers, have over $400,000 of bonds of the line and will take more. Several wealthy Nevada men are also interested. The road now traverses the full length of Long Valley to the somewhat arid plain east of Honey Lake. From this point the projected route is around the lake to Willow Creek, up through Snowstorm Canyon and across the Madeline plains, passing east of Eagle lake, touching the Pit river's south fork and following to Alturas, the county seat of Modoc. Thence the road is planned to go northerly through Central Oregon, through the fertile plateau just east of the Cascades, and on to The Dalles, on the Columbia, and on the Oregon Railway & Navigation Company's main line. This will make a road about 400 miles long that will open up some of the finest agricultural and mining regions of Nevada, California and Oregon.

San Francisco Alta: The Chicago Tribune attacks Nevada as "a State whose resources are exhausted," as a "decaying State," etc. The fact is, Nevada has better resources and a brighter future than Dakota can boast. Nevada can sustain a greater population than Dakota, and make them richer per head.

Chicago papers usually display more intelligence.

When it is taken into consideration that the average altitude of Nevada is about 5,500 feet above sea level, has 1 655 000 acres of land suitable for cultivation, and the facts of the various products (our State is called by those who know little of it, a desert waste) the fact will surprise them that there were over 300,000 acres of land under inclosure in 1887, and 505,894 bushels of choice wheat was produced; 210,871 bushels of the best potatoes in the universe, 185,342 tons of hay and 673 tons of wool. Let us ask, do desert wastes give the world such products? And what would our products be had our State the population which it can take prosperous?

Our lately barren hills and bench lands, hitherto regarded (often by our own people) as only good for stock ranges, are now being cultivated and covered with waving grain, flourishing orchards and vineyards. Most of Nevada's agriculturists act upon the maxim of General Jackson: "Trust in God, but keep your powder dry." They sow their grain and plant their trees at proper seasons. If the Almighty sends them rain, 'tis well; if not, their "powder" is dry, and when the soil needs water their ditches supply it. His crop never fails, or, if it does, 'tis his own fault and lack of industry. A great advantage to him rests in the fact that heavy rains wash off quantities or rich nutritious soil, irrigation being regular and even retains it.

Our neighbor, we might say paternal State of California, for Nevada is mainly settled by her citizens, and to-day boasts a large population of old Californians, has a world-wide reputation for her fruits, and now we come to a surprise for those who know little of our resources other than mineral. We produce as fine apples as our "parent" neighbor in all respects, except in flavor, and in that we can excel California. Apples we ship from 12 to 24 ounces, of the best quality in all respects, are not uncommon. We also produce peaches, pears, plums, prunes, apricots and figs. Nevada was awarded the silver medal on apples at the New Orleans Exposition, and would have had the gold one but for want of varieties.

Upon the admission of Nevada as a State she was entitled to every sixteenth and thirty-sixth section for school purposes. These sections fell in among mineral lands and were not a source of profit to the school fund. Congress proposed, that, upon relinquishing title to these sections, the State could have two million acres in lieu thereof, to be selected from any unappropriated, non-mineral public land in the State. This proposition being accepted, the grant was made by the United States June 16, 1880.

The terms for purchase of lands under the grant are very liberal. The applicant must be a citizen of the United States, not required to be a citizen of the State. He can purchase 640 acres, to pay one-fifth of the purchase price at the time he makes his application and upon notification makes a contract upon the unpaid balance at twenty-five years' time, with interest at six per cent., payable annually. He can pay in full at his option. Timber land must be paid in full at time of application. The proceeds from sale of these lands goes to the benefit of the school funds of the State.

According to the report of the State Controller, Dec. 31, 1887, the school funds had a credit of $365,540.62.

CLIMATE.

We quote from the report of our Surveyor-General the following, which are well known facts:

"Nevada lays between the thirty-fifth and forty-second parallel, north latitude, it consequently lays in a belt of all temperatures, from that required to grow cotton and cane to that necessary to the hardening of oak or ash. Through all sections there prevails that dryness of atmosphere peculiar to this region." We would remark here, parenthetically, that in the history of the State and legends handed down by the proverbial "oldest inhabitant" a case of sun-stroke has never been known, which is attributable to this dryness of the atmosphere. "In the absence of dews and moisture malaria does not exist in this clear, dry atmosphere. The days are mild and pleasant; the sunshine so clear and bright, gives cheerfulness everywhere. The nights are cool and invigorating, never sultry or close. On account of the lack of humidity the extremes of heat or cold are not so perceptible as in most climates. No heat is oppressive in any part of the State. Summer evenings are always cool and pleasant and serve as a tonic for the following day. In Winter the mercury falls at times to zero and in some localities much below, but with all that the Winters are never severe, and many days, at times months, are like Spring. Light thunder showers occur in the Summer months, leaving a delightful, cool and refreshing atmosphere. Taking all in all, the climate of Nevada cannot be surpassed. It has more of pleasant sunshine, delightfully lovely nights, and beautiful weather than any other portion of the United States. Nevada can truly be called the land of sunshine. A great benefit from its clear, dry climate seems to come to those affected with lung and throat troubles, and is most excellent for asthma. No one can have asthma in Nevada. If people in the East only knew of our climate they would prefer it to Southern California."

But little can be added to our worthy Surveyor-General's report, only that pulmonary complaints are seldom known and consumption has never been known to originate within our borders.

A False Impression Corrected.

The Virginia Enterprise says:

An objection to a State lottery is made by some persons that it is intended to benefit alone a few persons who will own its stock. A false impression has been created respecting that subject. We are authorized to say that any citizen of the State will have the opportunity to subscribe for the capital stock of any company the Legislature may see fit to incorporate, at such reasonable price per share as would insure to the corporation a moderate fund with which to organize and begin its drawings. It would be a capital stock upon which there would be no assessments, as the success of the Louisiana Company has furnished convincing proof that no assessment of stockholders would ever be required.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nasbys, or of Phil Allgier, the drayman.

Mrs. Partridge, who has been visiting her daughter, Mrs. C. A. Dealy, for the past two weeks, returned to her Oakland home Thursday night.

"To Be, or Not to Be,"

Soliloquized the melancholly Dane. A sea of troubles opposed. He shrank before them; ambition lay dead. Life, as he viewed it, rested under a yellow cloud, tinged with green. Hamlet, to my mind, was billious. The blood, diseased, carried through the natural gates and allays of the body, made life a burden; and the ills of the body magnified in a ten-fold degree his other ills. Purify the blood, give new life and action to the system, take Dr. Pierce's Golden Medical Discovery, and your drowsiness, lack of appetite, chilly sensations, yellow skin, bad breath, will all depart, as the morning mists are dispelled by the rising sun.

Thousands of cures follow the use of Dr. Sage's Catarrh remedy. Fifty cents.

What Am I to Do?

The symptoms of biliousness are unhappily but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred it is rough at all events.

The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw f-1y

When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

LACES. LACES. LACES.

22 pieces DENTELLE ORIENTAL LACE, choice patterns, at 5c, 7½c, 8½c, 10c, 15c and 20c per yard. These are worth fully double. As this is the season when Laces and Embroideries are largely used, ladies will do well to make a selection from this large assortment.

500 Pieces All Silk Satin and Gros-grain Ribbon,

Crown Edge, and in the Most Desirable Shades, will be offered at the following remarkably low figures:

No. 5. 135 pieces, at 5 cents per yard | No. 9. 115 pieces, at 12½ cts per yard
No. 7. 125 pieces, at 10 cents per yard | No 12. 125 pieces, at 15 cents per yard

In addition to the above the following splendid bargains will be offered:
20 dozen Ladies' Five-Button Derby Stitched Kid Gloves in tan, brown and black, at 50 cents a pair.
There are left a few pieces of the Celebrated Faille Francaise Silk, in pretty shades, at $1.75 per yard.
A few more cuts left of the finest grade of all Silk Satin Rhadames at the reduced price of $1.25 per yard.
50 pairs 10-4 white Blankets at only $1 per pair.
The balance of our CLOAKS, WRAPS AND JACKETS, we will close out at importation prices.
We respectfully invite the public in general to pay us a visit during this sale, as it will repay them to do so. By calling early you will be enabled to make a better selection. Respectfully,

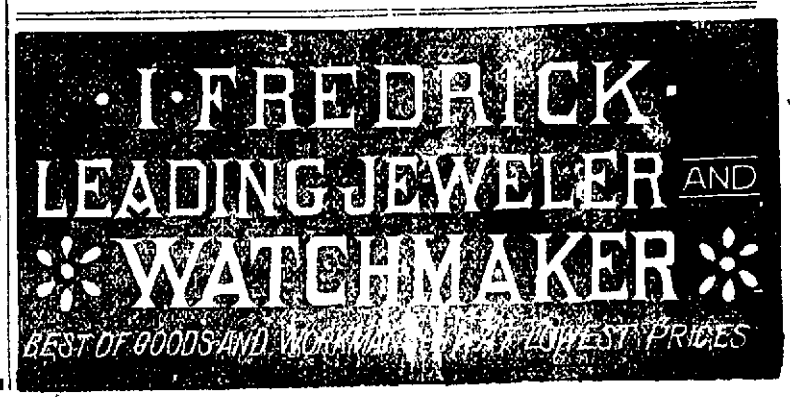

Palace Dry Goods and Carpet House.

JOHN BREUNER, SACRAMENTO.

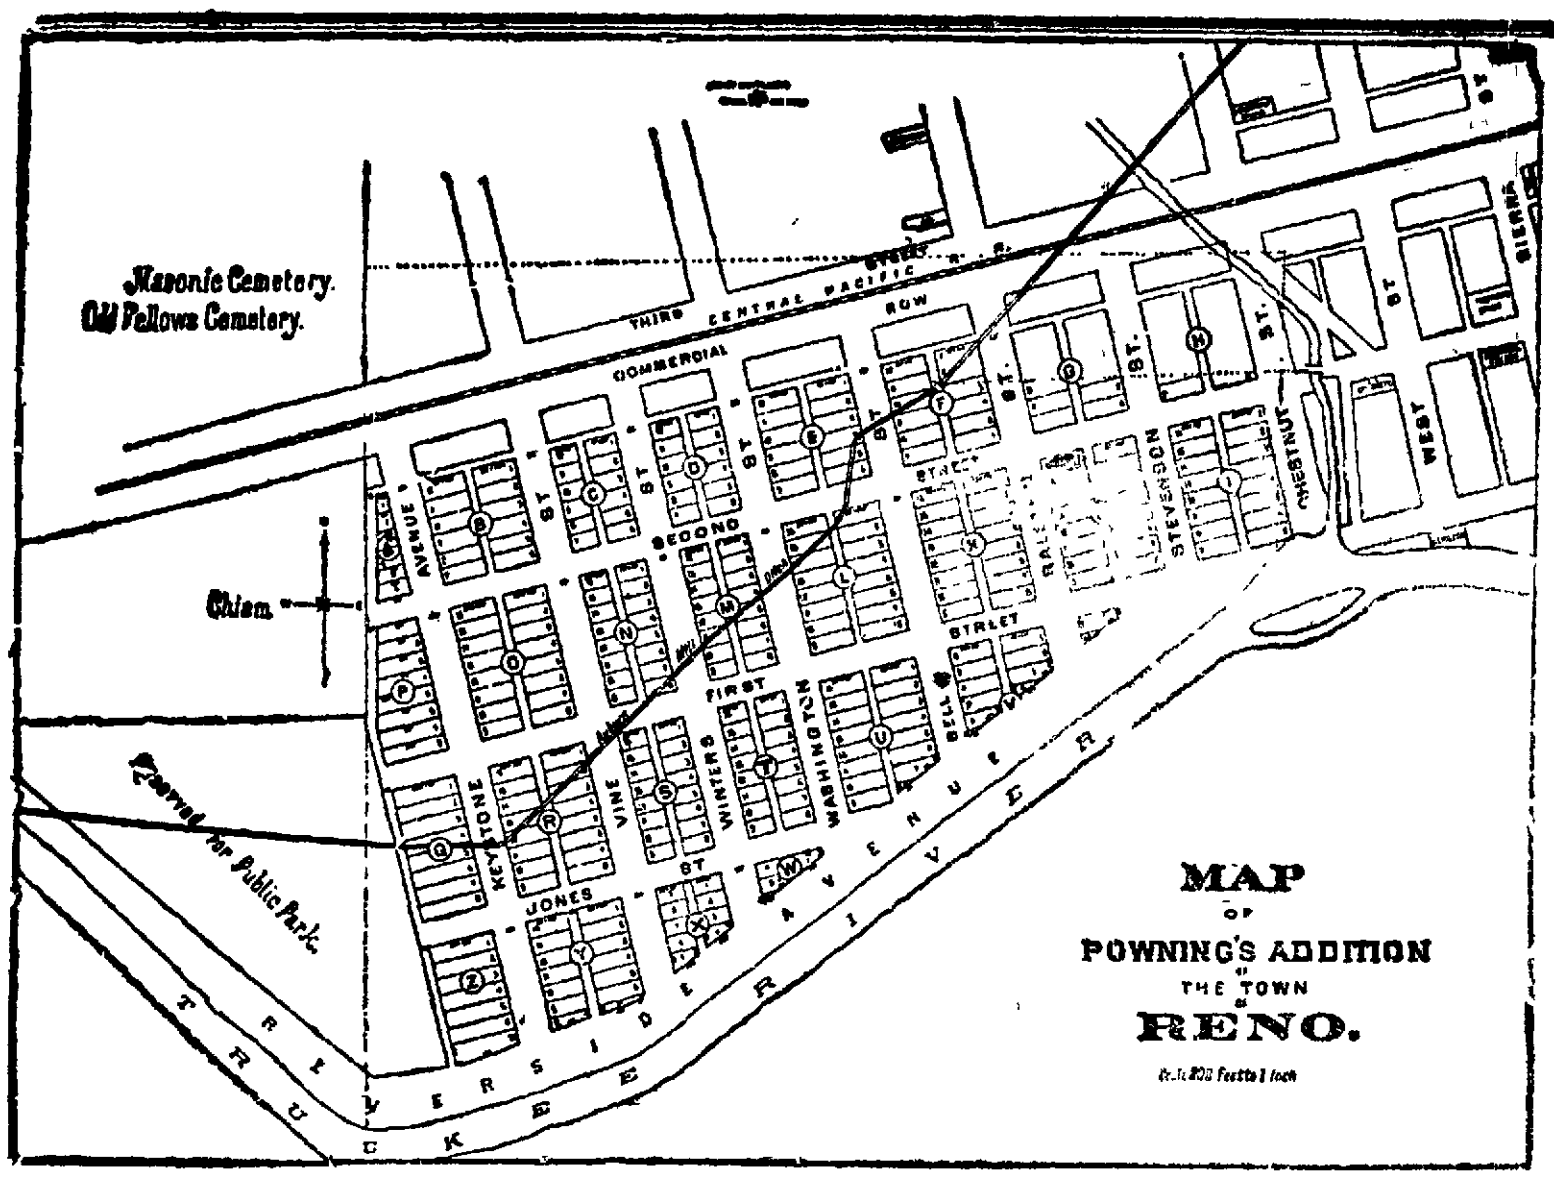

JOHN BREUNER,
Furniture and Bedding,
604, 606, and 608 K Street,
SACRAMENTO, CAL.

THE OLD RELIABLE FURNITURE HOUSE OF John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in the business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

I. FREDRICK.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with $300,000 capital, and the First National Bank with $200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO !

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town!

The Cleanest Town!

The Wealthiest Town!

The Healthiest Town!

RENO

Is Supported by the Richest Farming Country of Nevada, Northern California and Southern Oregon.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

RENO !

Is the Railroad Center of Nevada.

RENO

Is the Educational Center of Nevada.

RENO

Is the Healthiest Town in Nevada.

RENO

Is Great, and Alfalfa is King

The Safest Investment

IN THE STATE.

RENO PROPERTY

Is the Cheapest on the Coast in comparison with that of other cities

ELECTION NOTICE.

PROCLAMATION

—BY THE—

Board of County Commissioners,

—OF—

WASHOE COUNTY, NEVADA.

Special Election Monday, February 11, 1889.

NOTICE IS HEREBY GIVEN THAT ON Monday, the 11th day of February, A. D. 1889, at the several election precincts in the county of Washoe, State of Nevada, hereinafter named, an election will be held for the adoption or rejection of the following proposed Amendments to the Constitution of the State of Nevada, to-wit.

AMENDMENT NO. 1.

To amend Section 2, Article IV, of the Constitution, so as to read as follows:

Section 2. The sessions of the Legislature shall be biennial, and shall commence on the third Monday of January next ensuing the election of members of the Assembly, unless the Governor of the State shall, in the interim, convene the Legislature by proclamation.

AMENDMENT NO. 2.

To amend Section 6 of Article IV, of the Constitution of the State of Nevada so as to read as follows:

Section 6. Each House shall judge of the qualifications, elections and returns of its own members, choose its own officers, determine the rules of its proceedings, and may punish its members for disorderly conduct and, with the concurrence of two-thirds of all members elected, expel a member.

AMENDMENT NO. 3.

To amend Section 20 of Article IV, of the Constitution of the State of Nevada so as to read as follows:

Section 20. The Legislature shall not pass local or special laws in any of the following enumerated cases, that is to say, Regulating the jurisdiction and duties of the Justices of the Peace, for the punishment of crimes and misdemeanors, regulating the practices of courts of justice, providing for changing the venue in civil and criminal cases, granting divorce, changing the names of persons, vacating roads, town plots, streets alleys and public squares, summoning and impanelling grand and petit juries, and providing for their compensation, regulating county and township business, regulating the election of county and township officers, for the assessment and collection of taxes for State, county or township officers and dus guarding the places of voting; providing for the sale of real estate or personal property belonging to minors or other persons under legal disabilities, giving effect to invalid deeds wills or other instruments, refunding money paid into the State Treasury, or into the treasury of any county; releasing the indebtedness, liability or obligation of any corporation, association or person to the State, or to any county, town or city of this state But nothing in this section shall be construed to deny or restrict the power of the Legislature to establish and regulate the compensation and fees of county and township officers; to establish and regulate the rates of freight, passage, toll and charges of railroads toll-roads, ditch, flume and tunnel companies incorporated under the laws of this State or doing business therein.

AMENDMENT NO. 6.

To amend Section 33 of Article IV, of the Constitution of the State of Nevada so as to read as follows:

Section 33. The members of the Legislature shall receive for their services a compensation to be fixed by law, and paid out of the public treasury, but no increase of such compensation shall take effect during the term for which the members of either house shall have been elected, *provided*, that an appropriation may be made for the payment of such actual expenses as members of the Legislature may incur for postage, express charges, newspapers and stationery, not exceeding the sum of sixty dollars, for any general or special session, to each member, and furthermore *provided*, that the Speaker of the Assembly and President of the Senate shall each, during the time of their actual attendance as such presiding officers, receive an additional allowance of two dollars per diem.

AMENDMENT NO. 8.

Amends Section 17 Article V, of the Constitution of the State of Nevada by entirely repealing and striking out the same

AMENDMENT NO. 9.

To amend Section 18 of Article V of the Constitution of the State of Nevada so as to read as follows.

Section 17. In case of the impeachment of the Governor or his removal from office, death, inability to discharge the duties of the said office, resignation or absence from the State, the powers and duties of the office shall devolve upon the President of the Senate for the residue of the term, or until the disability shall cease; and in case of the impeachment of the President of the Senate while acting as Governor, or his removal from office, death, inability to discharge the duties of the said office, resignation or absence from the State, the powers and duties of the office shall devolve upon the Speaker of the Assembly for the residue of the term or until the inability shall cease. But when the Governor shall, with the consent of the Legislature, be out of the State in time of war, and at the head of any military force thereof, he shall continue Commander-in-Chief of the military forces of the State.

AMENDMENT NO. 9.

To amend Section 32 of Article IV, so that (it) shall read as follows:

Section 32 The Legislature shall have power to increase, diminish, consolidate or abolish the following county officers. County Clerks, County Recorders, Auditors, Sheriffs, District Attorneys, County Surveyors, Public Administrators and Superintendent of Schools The Legislature shall provide for their election by the people, and fix by law their duties and compensation, County Clerks shall be ex-officio Clerks of the Courts of record and of the Board of County Commissioners in and for their respective counties.

AMENDMENT NO. 19.

Amending Section 3 Article 15, of the Constitution of the State of Nevada so as to read as follows

Section 3 No person shall be eligible to any office who is not a qualified elector under this Constitution. No person who, while a citizen of this State, has, since the adoption of this Constitution, fought a duel with a deadly weapon sent or accepted a challenge to fight a duel with a deadly weapon, either within or beyond the boundaries of this State, or who has acted as second or knowingly conveyed a challenge or aided or assisted in any manner in fighting a duel, shall be allowed to hold any office of honor, profit or trust, or enjoy the right of suffrage under this Constitution The Legislature shall provide by law for giving force and effect to the foregoing provisions of this section, *provided* that females over the age of twenty-one years, who have resided in this State one year and in the county or district six months next preceding any election to fill either of said offices shall be eligible to the office of Superintendent of Public Schools and School Trustees

AMENDMENT NO. 20.

To amend Section 1 of Article VII, of the Constitution of the State of Nevada so as to read as follows

Section 1 The Assembly shall have the sole power of impeaching The concurrence of a majority of all the members elected shall be necessary to an impeachment All impeach-

ELECTION NOTICE.

sitting for that purpose, the Senators shall be upon oath or affirmation to do justice according to law and evidence. The Chief Justice of the Supreme Court shall preside over the Senate while sitting to try the Governor or the President of the Senate while acting as Governor, upon impeachment. No person shall be convicted without the concurrence of two-thirds of the Senators elected.

AMENDMENT NO. 22.

To amend Section 24 of Article IV. of the Constitution of the State of Nevada so as to read as follows:

Section twenty-four. The Legislature is authorized to provide for the organization and incorporation of a lottery in the State of Nevada, and to designate the amount of revenue that shall be annually paid into the State Treasury by said corporation.

AMENDMENT NO 23.

To amend Section 3 of Article XI. of the Constitution of the State of Nevada so as to read as follows:

Section 3. All lands, including the sixteenth and thirty-sixth sections in every township donated for the benefit of public schools in the Act of the thirty-eighth Congress to enable the people of Nevada Territory to form a State Government, the thirty thousand acres of public lands granted by an Act of Congress, approved July second, A. D. eighteen hundred and sixty-two, for each Senator and Representative in Congress and all proceeds of lands that have been or may hereafter be granted or appropriated by the United States to this State, and also the five hundred thousand acres of land granted to the new States under the Act of Congress distributing the proceeds of the public lands among the several States, of the Union, approved A D. eighteen hundred and forty-one; *provided*, that Congress make provision for or authorize such diversion to be made for the purpose herein contained; all estates that may escheat to the State; all of such per centum as may be granted by Congress on the sale of land, all fines collected under the penal laws of the State, all property given or bequeathed to the State for educational purposes, and all proceeds derived from any or all of said sources shall be and the same are hereby solemnly pledged for educational purposes, and shall not be transferred to any other fund for other uses; and the interest thereon, shall, from time to time, be apportioned among the several counties, as the Legislature may provide by law, and the Legislature shall provide for the sale of floating land warrants to cover the aforesaid lands, and for the investment of all proceeds derived from any of the above mentioned sources, in United States bonds, or the bonds of this State, or the bonds of other States of the Union; *provided*, that the interest only of the aforesaid proceeds shall be used for educational purposes, and any surplus interest shall be added to the principal sum, *and provided further*, that such portions of said interest as may be necessary may be appropriated for the support of the state University.

AMENDMENT NO. 24.

To amend Section 6 of Article XI. of the Constitution of the State of Nevada so as to read as follows:

Section Six. The Legislature shall provide a special tax, which shall not exceed two mills on the dollar of all taxable property in the State, in addition to the other means provided for the support and maintenance of said University and common schools.

AMENDMENT NO. 25.

To amend Section 3 of Article XIII of the Constitution of the State of Nevada so as to read as follows:

Section 3. The State shall provide as may be prescribed by law for those inhabitants who, by reason of age or infirmity, or misfortunes, may have claim upon the sympathy and aid of society.

AMENDMENT NO. 27.

To amend Section 1 of Article XVI. of the Constitution of the State of Nevada so as to read as follows:

Section 1 Any amendment or amendment to this Constitution may be proposed in the Senate or Assembly, and if agreed to by a vote of two-thirds of the members elected to each House, such proposed amendment or amendments shall be entered on the respective journals of each House with the yeas and nays taken thereon. Any amendment or amendments agreed to by the Legislature, as provided in this section, shall be published for three months next preceding the time for electing the next Legislature, and shall be submitted to the people at the time for electing the next Legislature in such manner as the Legislature agreeing to such amendment or amendments shall prescribe, and if the people shall approve and ratify such amendment or amendments by a majority of the electors voting for members of the Legislature at such election such amendment or amendments shall become part of the Constitution.

BALLOTS.

The ballots to be used at such election shall be of good quality of white paper, 14th flat cap in form and size, to be of the length of sixteen inches, and of the width of four inches, or within an eighth of an inch of such size, and if printed, black ink only shall be used, and the amendment voted for or against shall be set in brevier capitals.

On all ballots voted at said election a printed or written reference shall be made to the amendments to the constitution voted on in substantially the following form:

Constitutional Amendments

No. —. To amend Section —, Article —. Yes.

Or,

No —. To amend Section —, Article —. No.

If the ballot be written the same shall be so written that no portion of the writing appear when the ballot is folded.

THE POLLS.

At said election the polls shall be opened not later than 8 o'clock A. M., and will continue open until 6 o'clock P. M., except one hour for recess at any time before 4 o'clock in the afternoon.
